The Doors.

Some people want them, some people don't. It's an option, really.

Doors!

Parent(s): ProductionRegulatoryMarketing

Description: Get the f*@! Doors done! First production doors shipped to

Owner(s): Terry, Fritz, Pete, Gerrit, Jackie

Due Date: September 30, 2021

Program Doc: https://docs.google.com/document/d/1WB5lwKfN

Budget: https://sheets.google.com/document/d/1WB5lwKfNBTrxS

Also, @mark — when are you going to approve the quote for the PR?

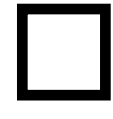

Add Comment on Doors!

Doors!

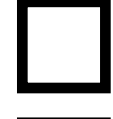

- Complete Engineering of Doors

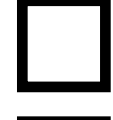

- Solidworks Drawings

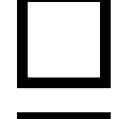

- Prototype Tests

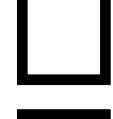

- Regulatory Compliance

- Identify code sections relevant

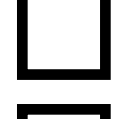

- Identify test labs to perform regulatory tests

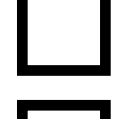

- Ship prototypes to test labs

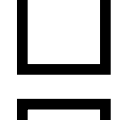

- Verify results and write compliance documentation

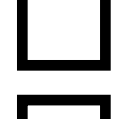

- Marketing

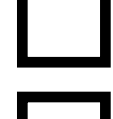

- Add Doors to vehicle configurator

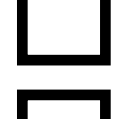

- Add Doors to Accessories Store

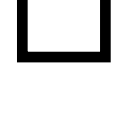

- Materials

- Order plastic

- Customer Experience

- Notify Evergreen Customers that their Doors are ready

The Flag! - Chore Browser

The Flag is a chore browser/editor. “As fast as Notepad for making a todo list.” Every chore has a name, an ordered list of parent chores, an ordered list of sub-chores, and a status, plus an “archived” flag.

Currently highlighted chore (in this case the root “Doors!” chore) has its details shown in the Stop, running change log and chat in the Run, and current “kick” link field, if present, in the Kick

Doors!

Parent(s): Production Regulatory Marketing

Description: Get the f*@! Doors done! First production doors shipped to a customer.

Owner(s): Terry, Fritz, Pete, Gerrit, Jackie

Due Date: September 30, 2021

The Stop is the full description of each chore - basically the “Stop” condition or goal. It contains all the metadata about the chore - budgets, timelines, watchers, alarms, access control, etc. Default access control is inherited from parent chores. Custom fields can be added to any chore.

 **Program Doc:** <https://docs.google.com/document/d/1WB5lwKfNBTrxS6rS4-PERcNEjltgQZkTyuXXuXbPljE/edit?usp=sharing>

 **Budget:** <https://sheets.google.com/document/d/1WB5lwKfNBTrxS6rS4-PERcNEjltgQZkTyuXXuXbPljE/edit?usp=sharing>

Add Field...

Any link fields that are added to a chore are “kick”s or shots on the goal of the chore. Clicking on the kick icon makes that the currently selected kick and opens the link in the Kick pane.

The screenshot shows a web-based document editor. At the top, there's a header bar with the title "Sample Kick" and several icons (star, folder, cloud). Below it is a menu bar with options like File, Edit, View, Insert, Format, Tools, Add-ons, and Help. A status bar indicates "Last edit was seconds ago". The main editing area has a toolbar with various text and formatting tools (undo, redo, bold, italic, underline, link, etc.). The document content includes the heading "The Doors.", followed by the paragraph "Some people want them, some people don't. It's an option, really.", and a large image of a white and black three-wheeled car with yellow roll-over protection bars. To the right of the main content, there's a sidebar with a note that says "The Kick is the current work product of the selected chore. The kick is a simple link out to some other site. Could be a link to a file on a drive, a Google Doc/Sheet, a Miro board, or whatever. In the interface, this link is placed in an iframe." The interface also features a left sidebar with a list icon and a right sidebar with a calendar icon and a plus sign.

The Run! - Chore Log

Doors! chore created. 6/9 - 4:20 PM

Miller 8/1 - 12:39 PM

Where my Doors at????

Terry 8/2 - 12:21 PM

Checking in with materials - @Chad, what's the story with the supply chain?

Miller 9/19 - 12:22 AM

Also, @mark — when are you going to approve the quote for the PR? Get on it!

The Run is the running log of changes to the Chore object (as shown in the Stop) and all of the text conversation about the Chore, ordered chronologically. Basically a slack channel/Twitter stream/Discord channel/Facebook comment thread for each chore.

The Bell icon represents a notification for a user when tagged in a chat.
