The Doors.

Some people want them, some people don't. It's an option, really.

Doors!

Parent(s): ProductionRegulatoryMarketing

Description: Get the f*@! Doors done! First production doors shipped to

Owner(s): Terry, Fritz, Pete, Gerrit, Jackie

Due Date: September 30, 2021

Kick: <https://docs.google.com/document/d/1WB5lwKfNBTrxS6rS4-PE>

Add Field...

Doors! chore created. 6/9 - 4:20 PM

M

Miller8/1 - 12:39 PM

Where my Doors at????

T

Terry8/2 - 12:21 PM

Checking in with materials - @Chad, what's the story with the supply

👍1

M

Miller9/19 - 12:22 AM

Also, @mark — when are you going to approve the quote for the PR?

 - Verify results and write compliance documentation
 - Marketing
 - Add Doors to vehicle configurator
 - Add Doors to Accessories Store
 - Materials
 - Order plastic
 - Customer Experience
 - Notify Evergreen Customers that their Doors are ready

The Flag is a chore browser/editor. “As fast as Notepad for making a todo list.” Every chore has a name, an ordered list of parent chores, an ordered list of sub-chores, and a status, plus an “archived” flag.

Currently highlighted chore (in this case the root “Doors!” chore) has its details shown in the Stop, running change log and chat in the Run, and “kick” link field, if present, in the Kick

Doors!

Parent(s): Production Regulatory Marketing

Description: Get the f*@! Doors done! First production doors shipped to a customer.

Owner(s): Terry, Fritz, Pete, Gerrit, Jackie

Due Date: September 30, 2021

Kick: <https://docs.google.com/document/d/1WB5lwKfNBTrxS6rS4-PERcNEjltgQZkTyuXXuXbPIjE/edit?usp=sharing>

Add Field...

The Stop is the full description of each chore - basically the “Stop” condition or goal. It contains all the metadata about the chore - budgets, timelines, watchers, alarms, access control, etc. Default access control is inherited from parent chores. Custom fields can be added to any chore.

The Run! - Chore Log

Doors! chore created. 6/9 - 4:20 PM

Miller 8/1 - 12:39 PM

Where my Doors at????

Terry 8/2 - 12:21 PM

Checking in with materials - @Chad, what's the story with the supply chain?

Miller 9/19 - 12:22 AM

Also, @mark — when are you going to approve the quote for the PR? Get on it!

The Run is the running log of changes to the Chore object (as shown in the Stop) and all of the text conversation about the Chore, ordered chronologically. Basically a slack channel/Twitter stream/Discord channel/Facebook comment thread for each chore.

The Bell icon represents a notification for a user when tagged in a chat.
